EDUCATION

The University of Texas at Dallas

Bachelor of Science in Computer Science

Richardson, TX

August 2025 – May 2027

Austin Community College

Computer Science Coursework

Austin, TX

August 2023 – May 2025

TECHNICAL SKILLS

Languages: C, C++, JavaScript, TypeScript, Python, HTML, CSS, SQL

Frameworks & Libraries: React, Vite, Node.js, Express.js, Tailwind CSS

Databases & Backend: Supabase, PostgreSQL, REST APIs

Tools: Git, GitHub, VS Code, Vercel

PROJECTS

Small Business Website Platform | *React, Vite, Tailwind CSS, Supabase*

January 2026 – Present

- Built a small-business website in **React** and **Vite** with a contact form for collecting consultation requests.
- Added input validation on form fields to prevent incomplete or incorrectly formatted submissions.
- Created backend endpoints to receive contact form data and return clear error or success messages.
- Connected **Supabase** to store submitted requests for later review and management.
- Deployed the application on **Vercel** and used preview deployments to test changes during development.

Refill Rush — charity: water Game Prototype | *HTML, CSS, JavaScript*

March 2026

- Built a browser-based game prototype in **JavaScript** with timed play, score tracking, and clickable falling objects.
- Separated the game into start, gameplay, and results screens to make the flow easier to understand and replay.
- Implemented game logic for random spawning, life tracking, obstacle penalties, reset behavior, and replay flow.

Personal Portfolio Website | *HTML, Tailwind CSS, JavaScript*

January 2026

- Built and deployed a personal portfolio website using **Tailwind CSS** and mobile-first layout patterns.
- Developed an infinite-loop photo carousel with arrow controls and drag/swipe interactions in **JavaScript**.
- Improved mobile usability by adding a collapsible navigation menu and anchor-based section links.

MyNotesApp | *React, Vite, Tailwind CSS, Node.js, Express.js, Supabase*

October 2025 – January 2026

- Built a full-stack notes application with a **Node.js/Express.js** backend for creating, reading, updating, and deleting notes.
- Developed a responsive **React** and **Tailwind CSS** interface connected to backend **REST APIs**.
- Connected **Supabase** to store note data and support persistent access across the application.

CERTIFICATIONS

Web Development Certification

2026

Global Career Accelerator

- Completed hands-on web development training using **HTML**, **CSS**, and **JavaScript**.
- Built and revised web project components with the help of **AI-assisted coding** tools.
- Practiced responsive layout, accessibility basics, and front-end customization through project-based coursework.
